

Rotary Water Polo Fellowship D1911

Dear Friends,

Please be informed that based on the exceptional experience of the 1st Rotary Water Polo tournament (see some pictures below) some polo enthusiast, me included, decided to establish a water polo fellowship within Rotary.

Actually we have already contacted Rotarian friends in Italy and asked the support of Rotary International as well.

But as the next step we would need further assistance from you to be able to establish the International Water Polo Fellowship of Rotarians (IWFR).

As part of the recognition process we have to provide the following documents to RI:

- Proposed bylaws or constitution consistent with RI policy,
- List of proposed officers,
- List of 25 willing members from at least five different countries.

Meanwhile we have already drafted the bylaws (to be checked and approved by the members of the fellowship before submission to RI), we would need more members, preferably out of Hungary.

Hereby I kindly ask you to help us to continue the building of this fellowship and let your Rotarians know about our intention. I truly believe that all fellowships help Rotarians to make more friends, which is the principle of Rotary.

Should you need more information on the project, please feel free to contact assistant governor Robert Kolozsvari (kolozsvari@mak.co.hu; +36-30-846-4206), member of Rotary Club Budapest-Duna, who gave birth to this project and he is in charge of the process.

This Rotary Water Polo Fellowship will help Rotarians to build more friendships.

Thank you for your kind assistance.

Best regards,

Zoltán Mészáros

DG 2017/2018
