Project description:

(separate supplement possible)

In the last 10 years, a large number of private faculties have been opened in BiH, whose primary interest is to enroll as many students as possible in order to maximize profits. Unfortunately, most private faculties seem to achieve this goal by reducing the quality of teaching and by lowering the criteria for grading, which inevitably leads to a decrease in the quality of education.

In addition to this problem, due to poor economic conditions in the country, there is a problem of brain drain, emigration of able-bodied, highly educated individuals in search of a better paid job or a job with better working conditions. In doing so, one should not neglect the fact that these people would succeed in Bosnia and Herzegovina only to get the opportunity and support they receive in other places, and forget that they are recognized regardless of their ethnic, political or any other background, but only as great talents valuable investments in them.

RC Tuzla, in cooperation with RC Wien, wishes to contribute to the reduction of these problems. The very criteria for granting scholarships directly favor students attending better universities and want to stay in BiH after completing their studies. In addition, there are many excellent students in BiH who are not able to study due to poor material status.

Since the costs of studying in BiH are not large, small funds could support more students. RC Tuzla would continue and expand with this project scholarships for students who are already part of the RC Wien program in BiH, as well as newly elected students, leading the selection by the already existing criteria that are in the attachment.

In addition to material support, scholarship holders also have the opportunity make connections with friends from Austria with possible upgrading in Austria, during their studies and through work. In this way, the acquired knowledge is transferred to BiH, which is also a very important aspect of this project.

Sustainability:

(How sustainability is granted (e.g. acquired skills, independent continuation, cooperation with local authorities, other partners ...)?

The total budget is 11500 euros + potential 2500 euro District Grants. If approved, this project would be nominated by RC Tuzla for the District Grant.

Conditions for awarding scholarships - the competition would be addressed to the Universities of BiH, which will strengthen the cooperation and increase the rating of Rotary in the academic community of BiH.

Type of activity:

(Municipal development, education, scholarships, nutrition, health, water and sanitation, exchange, ...)

Scholarship and education.

Use of Funds:
